Hythe Defeated By Local Team In Good Clean Game

Fast skating and finishes of good combination featured the hockey game between Hythe and Grande Prairie and Grande Prairie won the Wapiti Rink on Saturday night, the home team winning by 6-2.

Alas McEwan, the scoring ace for the visitors, was missing Hythe two goals. Little Billie Oakford did some good work, while Frank Webb in goal turned in a nice game.

For Grande Prairie, Turner Wright, Law, Edmiston and Rusty Black were much in evidence and were big factors in the victory.

Rust from the whistle Hythe struck a fast clip. After three minutes McEwan went in fast and scored unassisted. The visitors had the better of the going and pressed, but Webb swept aside their offerings.

Finally, Pete Wright grabbed the puck at centre and skinned himself away right through the defense and notched another Grande Prairie's first counter.

End of the first period followed with McEwan finally finding the net for Hythe's second tally.

On resumption of play the Grande Prairie boys worked the puck through the visitors' danger zone and Turner took a pass started from behind the net and shot past close in for another.

The visitors faltered in the second stanza and the home team had the edge and shot several times but Webb was unable to find the net. He pucked down the left side and passed to Black, who found the net. Black repeated a few minutes after by hauling the puck through the visitors' zone.

Denny Law then came very much into the limelight when he counted on a pass from Edmiston, repeating a minute later to pass through the visitors' zone.

During the intermission the visitors recuperated and put up a valiant battle but the home team's defense was quite even, but neither team were able to locate the net. The final score: Grande Prairie, 6; Hythe, 2.

John Shaver, Hythe referee, and Jack Crumby judge of play, Jimmy Gault of Hythe held the watch.

Rex Harper, manager of the Hythe boys, conducted the time keeping.

Hythe: Goal: Frank Webb. Defense: Gerald Clark, Nick Nasedin, Forrest McEwan, Alas McEwan, Jim McKenna, Irvine Thompson, Bob Pearson, Bill Oakford and Allan McEwen.

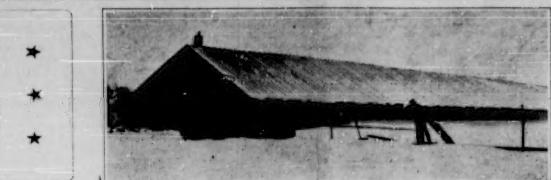

Grande Prairie: Goal: G. Donaldson, Defense: E. Pender and Frank Edmundson. Forwards: Rusty Black, J. Turner, Pete Wright, D. Law, Neil Delighish, Ken Wilson and Ken Crumby.

NOTES OF THE GAME:

The game demonstrated that there is still plenty of hockey talent in the Grande Prairie district and all that is needed is to work it into shape.

400 Merrymakers Of Grande Prairie Usher in 1936

The New Year was ushered in in a manner which will long be remembered by many of the Peace River who attended the New Year's Eve frolic at the Grande Prairie Curling Club, held in the Capitol Theatre, Grande Prairie, Tuesday night.

The climax of the evening was the annual "Roarin' Game," which all present joined hands in a large circle and sang "Auld Lang Syne," and greetings were exchanged. Joyful clouds reigned throughout the hall, and the dancing, while streamers thrown from all parts of the hall were a transformation of colors over the holiday spirit in the theatre, which had been attractively decorated for the occasion.

Many local spottings created gay and picturesque living patterns as they directed their brilliant rays to all parts of the hall during the evening, while holiday spirit filled the excellent refreshments furnished by Penson's orchestra.

At 2 a.m. Mayor Tooley officiated at the awarding of prizes to Juvenile division winners, the first being Miss Lillian Beatty. In addressing the gay assemblage, His Worship wished all the best for the year to come, and a very happy and prosperous new year. He had been present on many occasions such as this, he said, but never before had he seen such a large crowd. On behalf of himself and all present, he extended to Mr. and Mrs. Donald and family the season's wishes and congratulations. The following evening the hall was sponsored for Christmas.

This game failed to register a big score and ended in a win for Shaver.

Now that the holiday season is over, the curlers are saving a good start for the rest of the season.

Mr. and Mrs. Donald Give Enjoyable Dance New Year's Night; Locals Hold Get-Together Dinner

New Year's Day was a big one at the curling rink, this reason being Spicer's cakes were in the offing for all the participants in the draw for the day. Twenty rinks were drawn and for the first time during the season all rinks were won by the draw.

A. Dalgleish, 10; G. Law, 10; Jim Swallow, 10; Duncan, 10; and Mantis 10.

On show one. Watcher and Hayes had a very close game, ending in a win for Watcher, 6 to 5.

Bezanson Oldtime Couple Celebrate Golden Wedding

A full hall of friends and neighbours greeted Mr. and Mrs. John Pollock the night of December 13 to help celebrate one of the most happy occasions of their lives—their golden wedding.

For the past 50 years they have lived in the Lake Saskatoon and Wainwright districts, where she was married to James Cahoon. Of this union were born six children, the oldest now fifteen years of age and the youngest an infant.

Decades were of a quiet and loving nature, a friend to all those who knew her.

Left mourns the loss her her son-in-law, husband and father of two brothers, Stacy and Lloyd, and one sister, Hazel.

Two other sisters—Mrs. Irene and Mrs. Anna—survive her, as well as her daughter, Mrs. Pete Cameron of Wainwright, and her aunt, Mrs. Hewitt, also mourn her loss. Her father and one sister predeceased her 20 years ago.

Cremation services were held in the United Church at Lake Saskatoon on Monday, December 23, Rev. Wm. J. Hume in charge of the service. Pallbearers were: Wm. Richy, B. Plant, M. Cameron, S. B. Allcock, C. H. Hartog, G. F. McDonald, and the Dunsmuir family.

Local floral tributes were placed on the coffin from the following friends and neighbours in the family, most of whom are now deceased.

Mr. and Mrs. Pete Cameron, Mr. and Mrs. C. F. Hopkins, Mr. and Mrs. A. McDonald, Lake Saskatoon Community Church, Mr. and Mrs. T. F. W.A., Lake Saskatoon U. F. A., Mrs. P. Parry and family, Mr. W. F. Parry, Mr. and Mrs. Wm. C. Cameron, Mrs. Arthur Smith, Mr. and Mrs. A. R. Smith, Mr. and Mrs. Norman Trele, and others without name.

WEMBLEY SPIEL TO BE HELD FIRST WEEK IN FEBRUARY

Wembley Bonspiel will be held the first week in February, according to Mr. Wm. J. Hume, February 3. The five-day curling event will finish Friday, February 7.

The Wembley curlers extend

a cordial invitation to all sportmen.

According to the Edmonton papers, Jack Minchin, son of Dan Minchin of Grande Prairie, has caught a place on the Peace River team, and is doing well and is giving a good account of himself on the forward line.

He who played with Peace River and Grande Prairie has great promise and his many friends in the Peace River country will be pleased to hear that he is up to par in the Canadian's premier winter pastime in the North for several years.

All homes in Grande Prairie and the surrounding areas were the scene of informal parties almost daily.

There was a great deal of socializing, for the members of the Peace River country enjoyed and enjoyed to the full a gala week of dancing, partying and sports, making the holidays the most pleasant and greatest success seen in the North for several years.

Dancing was thoroughly enjoyed in the evenings and additional support to the orchestra came from the band of the Royal Canadian Air Force, the Joe Scott Band.

The dances were transported from the hall to the dance floor.

These two teams will meet again shortly and another good battle can be expected.

Halcourt Man Is Found With Gun Shot in Chest

John Duse, age 39, of the Halcourt district, was found beside a burning straw stack on his property Friday evening, December 27, with a shotgun wound in the chest.

De Carle was sent for and was soon on the scene and rendered surgical aid, following which he took the victim to the Halcourt Hospital, where he lies in a critical condition.

Police are investigating the case.

**CAPITALISM ROBS CIVILIZATION
OF BENEFITS OF SCIENTIFIC
ADVANCEMENT**

The Editor of The Tribune.

I visited the hospital the other day and I found my soldier friend there. He was very ill with a fever. In homes which I know are anxious to knit to bolster up the family income ready on the other hand that Ontario has built itself up by having to purchase electrical energy from certain water-power developments in Quebec. You have existing in the same time sheep raw material—the fleece of wool. You have the great need for woolens wear. You have solar energy which is being thrown away to waste. Why? This answer is because of capitalism. Capitalism endeavours to "capitalize" every scientific advancement and to make a profitable game without driving the public to do the work by hand, or go without the commodity.

Business capitalism has overstepped the mark. The citizens of the North are, in many instances, doing their own knitting, tanning leather, making hardware, etc., etc. We have a good big kettle to throw our scrap metal into and re-mould machinery. The men who know how are working hard to keep the public in belief. We are doing the work by hand while those who control our capitalist civilization are rendering their contract with the Giver of all good and true. It is not the fault of the individual in the need and the raw material, giving the power back into the face of the Almighty. In the sacred name of capitalism, however, it is not a "profit" to be made by its use.

No matter what invention may be made or development executed, capitalism, like the public, is blind. In the B.C. development it was reckoned that the fifty-million-dollar plant could pay 6% interest on a 350-million-dollar investment. The U. F. A. But, alas! I found that organization mostly existed of organized individuals, not the masses, but, however, that, regarding their contract with the Giver of all good and true, they were not far-fetched in the need and the raw material, giving the power back into the face of the Almighty. In the sacred name of capitalism, however, it is not a "profit" to be made by its use.

On Monday night it was my privilege to attend the Capitol Theatre in Grande Prairie, where a double feature bill was the "Song of Love" and "It Happened One Night." Either play was well worth the admission, each role being excellently portrayed.

It is, however, of the latter play, in which Grace Moore was the star, I wish to make a few comments. This offering includes scenes of "Madame Butterfly" and "Carmen."

The writer had seen and heard both these operas on the old legitimate stage and, although he could not sound reproduction, I could easily make myself believe that I was looking at a talkie. In fact, I got all the thrill of the stage, I feel, when enjoying these operas years ago.

As I sat and listened to this wonderful reproduction, my mind steamed and, hot enough, recall the first attempt at sound reproduction which ever experienced. It was in Edmonton, the sound apparatus was placed in front of the stage. It was a very perfect performance. But, this was a start. I shared the view of the majority of the audience that it would be impossible to get a machine that would reproduce perfectly.

Years have gone by and inventive genius has been hard at work, and now, as we enter 1936, the machine which once believed was impossible of perfection has arrived.

Perfection of the talkies is one of the greatest and most beneficial advancements in our world for the reason that it has given us the opportunity to be denied the opportunity, the greatest artists and the greatest mass of the population a new population of co-operators are born and reach positions of authority.

The white races are the surplus power mechanism of the world. They have them to keep the people with peace and plenty but to curse themselves with further preparation for war. The world wanders in the wilderness. It will be for forty years till a population of competitors develops a new population of co-operators are born and reach positions of authority.

OUR SOCIAL AND ECONOMIC LIFE

By H. O. HOMMEY

Supposing my last writing became more or less a large question mark, I may as well try and come closer to something we are interested in.

Since I first came in contact with the Canadian people, which was back in 1898, I have always been impressed myself, verbally and in writing, that Canada was destined to be one of the leading nations of the world. And, despite the chaotic conditions, I am still optimistic.

But, it is necessary we form a national mind, learn to understand each other and the different diversities and problems of the various parts of the Dominion, have to contend with. The Canadian government, municipalities etc., leads the way, but, nevertheless, the idea is lost if we do not have a national one, and see that the people working together for the common good—no East or West, no "I" or "We," no small or large.

What first came into this country, I suppose, was the fact that the people had united themselves for the purpose, into disrepute. And when that great

Timely Hints From the Beaverlodge Sub-Station

W. D. Albright
IT IS A PLEASURE AS WELL AS A DUTY TO SERVE

Some day somebody is going to try to figure up the cost of credit.

The principle of personal responsibility can be disregarded by the state only at its peril.

Examples of men like Abraham Lincoln show that a well-planned course of systematic reading will go far toward giving one a liberal education.

In the third trial of the experiment concerning oil crop with heavier mixtures the plots receiving oats were not moderately successful, although pretty good is needed with the oats this year.

The store customer who buys only for cash may reasonably expect cash for produce turned in. That keeps accounting clerks busy, saves time and eliminates risk. For fifteen years he has followed this system for the writer. It pays.

When one begins slipping, whether in keeping appointments, meeting his financial obligations or looking after things around the place, it becomes a treacherous decline. Unless he pulls himself together, it is but a matter of time before he finds himself in debt and often it comes to the point where he feels he is doing his creditor quite a favor in paying a debt.

A manufacturer's residence is usually remote from his plant, yet the modern industrialist likes to make his factory accessible to customers so that they would have it. The farm barns are viewed as a step in the house and are rather more comfortable. How important are these simple architectural barns and outbuildings and to keep the barnyard tidy, regarding it as part of the home.

A stock-taking on the farm it seems well to maintain a conservative valuation of the property and equipment. The author's practice is to change his land valuations little if at all from year to year, neither writing them down nor up. This is done in times not down to the bottom during slumps. The valuation of the work, the stock and implements is varied monthly, however, in view of the fact that the grain and feeding stock are inventoried at not more than they are worth according to existing or immediate prospective market conditions.

Frost hit deeply early this winter and the earth was matted with snow and after snow did not come in heavily to cover the late November chinook. On December 8 the Sub-Station's set thermometer whose bulb had been buried in the surface in summer followed land temperatures less than 9 degrees Fah., which is lower than it has been since the winter of 1929. The chinook was panned on December 20 the ground was largely bare save for some ice crust. With the coming of the first frost, though, northern temperatures were mild. It would be wise to look well to water-pipe lines, to cellars and to prevent plants from freezing. Manure is helpful in spots. In other places a strewing of straw may be more aesthetic.

A Drainage Problem

My land receives the seepage of a nearby lake and my only outlet is across a neighbor's land. The necessary ditch would cut off several acres of prime land.

Ans. Under the Private Ditches Act of Alberta any owner of land may interfere with the ditches of his neighbor. In this case, the owner of the lands whose ditches you want to alter would be affected by your action. The reducing of such an agreement to writing legalizes this way.

If it is necessary in drainage works that the water drained be carried to a sufficient outlet and not merely transferred from one property to another.

A municipality may carry out the drainage if it is necessary for the owners of the lands. In this case privately owned lands may be assessed for their share of the cost in proportion to the benefit they receive.

Autumn Moisture Reserves Seven borings made November 5 on the premises of the Beaverlodge Sub-Station in the forested area indicated about a foot in depth indicated that a considerable proportion of the season's abundant precipitation had been stored in the soil for the use of subsequent crops.

Land growing alfalfa is usually found to be dried out all three borings made in 1932 showed that the soil moisture plentiful to four feet in one hole and fairly plentiful from four to six feet. The soil moisture to 24 feet and fairly so to five. The third boring was on a ridge where the soil below four depth was found sandy and relatively dry.

grain cannot comply with seed standards. If suitable in all respects, a Control Sample Certificate will be issued to the grower of the seed or grain. This certificate will show grade and germination of the seed as well as the name of the seeds and other kinds of grain found therein.

Seed may then be sold by the grower under the grade and serial number of the certificate. It is the responsibility of the seller that the entire lot sold shall be fully equal to the control sample sent to the Branch office.

Seed Branch offices for the provinces of Saskatchewan and Manitoba are situated in Saskatoon and Winnipeg respectively. Alberta and British Columbia residents should address their samples to Calgary. Postage should be prepaid on all samples.

"ON THE AIR!"—ORCHESTRA IN STUDIO "C"

Snapped just before CJCA's official opening last year, the third largest large studio at CJCA, with the orchestra, under the baton of John Bowman, ready to go on National Network. Many of the splendid programs from CJCA heard by Peace River listeners-in during 1935 originated in this fine studio.

STUDIO "B"

Used mainly for speakers and small musical or dramatic groups. Studio "B" is the smallest of the three at CJCA.

WILLIAM "BILL" CRANSTON
Program Director

He is the preceding genius behind CJCA's many excellent programs. And more than that, his popular feature, "Meditation," has built up an audience second to none.

Out at the transmitter, six miles away from the action at the studios, Frank keeps his lonely vigil. And the combination of time and distance which would drive most men mad,

the power behind the throne at Edmonton's thousand-watters. "Red" is the man who sees that the wheels go round the way they should.

THE NORTHERN TRIBUNE
CJCA Broadcasts Bring Glad Tidings To The North

Radio sets throughout the North were tuned in to CJCA on Christmas Day, when which station broadcast the inevitable wave bearing Yuletide greetings from the far-scattered units of the British dominions, serving to unite the Empire in a common link of goodwill.

Simultaneously at daybreak in Canada, Boxing Day in Australia, British sets were also tuning in messages of brotherly mirth, King George V, who spoke from Sandringham House in Norfolk very early on Wednesday morning.

The Canadian Radio Commission feature, "Canada Celebrates Christmas," brought together artists and groups from all parts of Canada, and from the United States, the chime of chimes from Halifax to Vancouver sang Christmas carols. Halifax and Vancouver were separated across the continent joining in turn, the arrangement timed so that the concluding strains were heard from a city which had been the chosen Canadian Radio Commission record a new triumph in successful synchronization.

Far North, even above the Arctic Circle, white men and Eskimos, listened intently to the Christmas programs and the many messages sent by CJCA and stations throughout the continent which were sent by friends and relatives. Feasting and dancing followed and the happiness of the people grew for inhabitants of these northernmost points.

Christmas greetings from friends and relatives were also sent by air. These were sent by CJCA throughout the day to residents at all points of the Peace River system. A message from Leigh Brinnell of Mackenzie Air Service, when interviewed before the National Network microphone by Bert Cairns staff member, was the first to arrive. The plane broadcast over the air waves when arriving in the Capital city, and the arrival was one of the highlights of the afternoon's program to invisible northern audiences. The Christmas broadcasts were arranged by Mr. J. W. Taylor, president by Radio Station CJCA, operated by Taylor and Pearson Broadcast Co., Ltd., who give never and interesting hour-long programs directed at various times of the day to Peace Riverites, trappers and residents of the Far North.

Besides looking after the matter of the studio show, Bert is in charge of productions, this popular gentleman is CJCA's maestro in the world of sports.

Besides his infamous request program this versatile young man finds time to look after the matter of continuity and publicity departments at CJCA.

DEMMITT NEWS

DEMMITT CONCERT AND DANCE

DEMMITT, Dec. 30.—The School children and adults in Demmitt schoolhouse Friday, December 27, was in every way a decided success.

The program was composed of local talent, including a band, etc., not to mention the saxophone solo by Cecil Lewis accompanied by his brother, Dick on the piano.

The performance of the school children was very creditable to their teacher, Mr. Jack Lewis.

The show was well filled by Mrs. Bryson, whose humor and appreciation helped everything considerably.

We hope Mr. Lewis and the pupils will have another treat in the near future.

The dance which followed was well attended and enjoyed. Music was supplied by Cecil and Dick Lewis and other musicians.

Mr. and Mrs. O. Forget were dinner guests at the home of Mr. and Mrs. A. Audet on Christmas Day.

Rose Childers is the guest of Yvonne Monette during Christmas week.

WINS TURKEY AT SHOOT

O. Ferguson was the winner of a 10-gauge turkey at the turkey shoot held by J. Reynolds last week in Four Mile Creek, but as Ovila is one of those rare beings who do not care for fowl, he gave it to Rev. R. D. McArthur and his wife, Mrs. McArthur.

Mr. and Mrs. O. Forget were dinner guests at the home of Mr. and Mrs. A. Audet on Christmas Day.

All our young folk are planning to attend the big New Year's Eve frolic and dance at Fox Creek schoolhouse next Tuesday.

TEACHERS OFF TILL FEBRUARY

Miss Elma Carter, teacher at Four Mile Creek school, and Miss Mae Hansen, teacher at Fox Creek, have left for their respective homes to enjoy a well-earned rest until February.

Ted McDaid, who is residing in town for the winter months, was a Christmas guest at the home of Mr. and Mrs. Al Powers.

Mr. and Mrs. O. Forget were visitors at the home of Mr. and Mrs. Tony Desseigne on Sunday, December 29.

LAVAL NEARLY "LOSES" HEAD FOR AUTHORITYSHIP OF PEACE PLAN

PARIS, Dec. 28.—Premier Laval won a narrow vote of confidence from the Chamber of Deputies today as armed mobile guards were held in readiness outside to repel possible disorders. The Chamber by a vote of 261 to 276, on a procedural question, indirectly expressed its approval of the Premier's foreign policy after he promised to follow the League of Nations to the limit against Italy. Our second vote of confidence today was won by 364 to 291. This vote was in direct approval of his conduct on foreign affairs.

Representatives of the Anglo-French peace plan giving Italy two-thirds of Ethiopia protest a diplomatic memorandum for Sir Samuel Hoare, British Foreign Minister, who resigned, and the continuation of the plan. Premier Laval of France was thought in danger of being forced from office because of internal dissension. Great Britain has definitely denounced the plan and the League of Nations voted against it.

GUARDSMEN ENFORCE MENINGITIS QUARANTINE

National guardsmen were called out to enforce the most rigorous quarantine imposed on 30,000 residents of Keweenaw County, Mich., when an epidemic of deadly spinal meningitis swept the district. Ten deaths were believed due to the dread disease, which paralyzed traffic and daily activities of those in the danger zone. Drug and grocery stores were permitted to make only emergency deliveries.

SCHOOL CHILDREN AID IL DUCE SWELL THE NATION'S SCRAP IRON PILE

Mussolini's appeal to the Italian people for aid in meeting the national shortage of iron and gold has brought an almost fanatical response. School children throughout Italy are carrying household utensils and other articles, even their own toys, to school, where they are dumped on a pile. Here is a group of little girls throwing their contributions on the pile in their school courtyard before class in to their lessons.

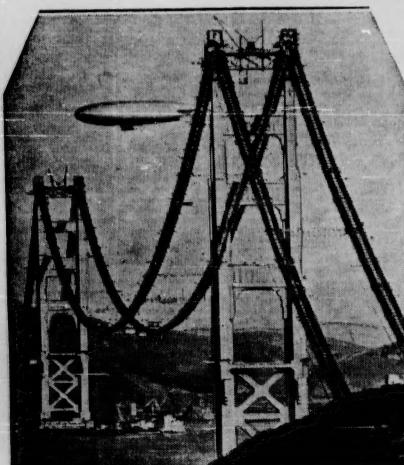

UNITED STATES NAVAL DELEGATES ATTEND CONFERENCE

Here are the United States delegates to the Naval Conference in London. Second from the left is Mr. Birmingham, United States Ambassador to London, while on the extreme right is Mr. Norman Davis, American Ambassador-at-Large. In a recent conference with the Japanese delegates to the naval parity the quartette above was informed that the Nipponese are afraid of the possibility of a naval war with the United States and therefore cannot reduce the Japanese navy.

WITH DETROIT

Marty Haas was one of the stars of the Boston team last year, but this season he is wearing a Detroit Red Wings outfit. A very clever checker, Marty should be a great help to the Wings. With this in mind, and when the going is hard near the end of the season his weight and experience should be useful.

MODEL OF PLANE WHICH MAY CARRY ATLANTIC PASSENGERS

Here is an interesting model of the Mayo Composite Aircraft, which is on view at the British Empire's Aircraft Exhibition in London. Designed for flying the Atlantic, and were long non-stop flights are involved, this aircraft is ready to muchness. It consists of a very lightly loaded aeroplane which is mounted on top of a huge, but lightly loaded plane. When the composite aeroplane has climbed to a safe height, the upper aeroplane is released and the lifting plane returns to the aerodrome.

What One Girl Wore:
By Betty Brownlee

With the exodus to the South already well under way, consideration must now be given to what kind of frocks for semi-tropical wear. If you are one of those fortunate souls who are to spend the winter or go to other summerly resorts, you will want to devote especial care to that selection of yours.

You will want some smart travel-wear, of course; but for the rest, make it point to have lots of say sporty clothes, and light, breezy gowns. Then rest assured that you will be prepared for any occasion.

An evening gown especially designed for resort wear is illustrated today. In color and texture, it is a marvelously bennes smart sophistication with youthful allure. Of black organza, nice delicate lace trim is found on the bodice, the back fastening of tiny covered buttons and the graceful cut of the skirt. The wide belt, of the same fabric, worn with it, forms a deep V at the back and sweeps to the floor.

A PRAYER

(Found in Chester Cathedral, England.)

Give me a good digestion, Lord.

And to some, to digest;

Give me a healthy heart,

With sense to keep it at its best;

Give me a healthy mind, good Lord,

To think and pure in sight;

Which seems not to offend,

But finds a way to set it right.

"Give me a mind that is not bored,

That does not whimper, while on high;

Don't let me worry thought enough,

About the fussy things called 'I's.'

Give me a sense of humour, Lord;

To get some happiness from life;

And pass it on to other folk!"

PARROTS — THEIR LIVES AND LOVES

Once upon a time there was a parrot named Chippy. He belonged to my mother, Mrs. D. W. Chard. When fully grown he was about 12 inches tall, from tip to tip, and of a pale yellow-green color, with a pale pink ring round his neck. His wings were kept clipped slightly so that he could

not fly far, and he was given the freedom of the house, being fastened up in his cage only at night.

Chippy spoke excellently, and could imitate any bird song, and was quite affectionate, so that even the dogs came running when Chippy called "Pargo! Pargo!" Poor Pargo, when she found out she was a bird, was very angry at the look of shame and disgrace on his face was most amusing.

He was a cook-house, and his go-downs in which the servants lived are situated at the end of the back compound, about two hundred feet or more from the front bungalow in parts of India.

When the mistri or cook (who had to be off early each morning to the market) had come home with a supply of fish and vegetables), and the ayah (nurse) overslept themselves, to shout "Cupped Chippy" very early one morning, Chippy thought he heard the alarm call, in mother's voice. "Yes, Cleo! Come quickly! Come quickly!"

Mother's voice was not the only one he could mimic to perfection.

The Europeans in India usually lie down in the early morning after heat, and then it is that the "bhories" or merchants of lace, cottons and silks, make their rounds, their trucks and carts drawn by bullocks, and the bungalows are no doubt all knobs on our heads of their clerks and "shop walkers."

Chippy could wait until we were comfortably settled down for forty winks heat permitting, and then he would trot into the front verandah and call out, "Cupped Chippy" to announce one's arrival is yodel. "Anytime, Cleo! Come quickly!"

Mother's voice was not the only one he could mimic to perfection.

One day, when the ayah overslept herself, Chippy was still sleepy, drunk to the depths of the delicious coffee to be able to catch any beauty sleep!

LEAVING FOR HONOLULU

Mr. and Mrs. W. Bayhan and Pat were the guests of Mr. and Mrs. H. Weicker in Sennett on Sunday. Mr. and Mrs. Golen entertained a friend of Friday's train en route for Honolulu where they intend staying for three months.

LOSES BEAUTY SLEEP

Miss Beverly Base entertained some of her friends at a delightful party on Saturday evening. The guests confided she was still sleepy, having drunk too deeply of the delicious coffee to be able to catch any beauty sleep!

SING CHRISTMAS CAROLS

Instead of the usual short sermon the Little Flock sang Christmas carols cards on Sunday night. Margaret Lanctot the possessor of a voice as clear and pleasant as a bell sang "In Old Judea" and the others sang "Jingle Bells" sweetly in the refrain. After the service the thirsty guests gathered round the organ and knees, sang with such sweet faith in their voices "Good Night, Sweet Jesus."

SALVATIONISTS HOLD NEW YEAR SERVICE

A service to welcome the Young People of the Salvation Army held in the Citadel from 11 o'clock to 12:30 a.m. Wednesday evening. Two members being asked to choose their own subject. Last Wednesday Ignatius Kennell was captain in "Christ the Rock" and Dorothy Golm, as lieutenant, led the singing.

SUFISM

Sufism is a system of mysticism which is half religious and half philosophical. It is that form of mysticism which is more or less current in all Mohammedan countries.

Some scholars believe the word Sufi is derived from a Greek term meaning wise men or seers; others a Latin word meaning simple or the self-sufficing people of the hems of the religious mendicants who squatted on benches outside mosques and walls. Some believe it is derived from the Arabic root safa, which signifies what is pure. The most probable derivation is from the Persian word safa, which means "purity".

The Sufi doctrine inculcates absolute resignation to God, will perfect manhood, and the love of God, which may ordain, after meekness towards all men, in a word, extreme quietism.

Once there was a Sufi dervish who had a very bad temper, and whose whoms no remedy could help, and who sat by the seashore and gave thanks to God. On being asked for what he was doing, he replied, "I am asking for this that you are to God, I have fallen into misfortune rather than into evil."

"Sufists say, 'Is this that thou shouldst hold thy brother in luxury in which fault is committed by the hand of man?'

Sufists have to lay aside what they have in their heads (i.e., prejudices, etc.), and to give up all that they have away what they have in their hands, and flinch not from ought which may befall them.

The actual living representatives of Sufism are the mystical posts of Persia, the Sufi or half-Sufi philosophers, who are not ascetics. But there is a relationship which exists between the various devish orders and Sufism, and the various Sufi sects are very much like them.

The monthly meeting of the Ladies' Aid of Forbes Presbyterian Church was held at the home of Mrs. Swallow on Wednesday afternoon, January 18. Election of officers took place and resulted in the following holding their positions: President, Mrs. Rooney; vice-president, Mrs. Crosby; secretary-treasurer, Florence Crook; recording secretary, Mrs. Boomer; vice-president, Florence Crosby; and recorder, Mrs. Boomer.

At the conclusion of the business meeting, during which a very encouraging report of the year's work was given by the secretary, tea was served by the hostess.

Miss Elizabeth Stark spent Christmas with her parents, Mr. and Mrs. John Stark.

SCHOOL REOPENING

We understand school is to re-open on January 8, after a holiday of over a month due to the teacher, Miss Bonella, being on the sick list.

The next excitement will probably be the annual meeting of the school district.

The dance held in the hall on New Year's Eve was largely attended and the New Year was ushered in in the good old Beanzanson way.
